

MEEG 2303 – Introduction to Materials

Fall 2007

Douglas Spearot, Ph.D.

MEEG 103, 575-3040, dspearot@uark.edu

Lecture:

Tuesday / Thursday, 11:00 – 12:20 pm, MEEG 212

Office / Drill Hours:

Prof. Spearot: Tuesday / Thursday, 4:30 – 5:30 pm, MEEG 103

Drill Session (Spearot and/or TA): Wednesday, 2:30 – 3:30 pm; 3:30 – 4:30 pm

Text:

The Science and Engineering of Materials, Fifth Edition, Askeland and Phulé, 2006.

Homework:

- Homework will be collected at the beginning of class on the dates marked in **BOLD** on the course assignments list.
- **No late homework assignments will be accepted without prior approval.**
- To receive full credit on each homework problem, solution must include all pertinent sketches or diagrams, equations, solutions and final answers with correct units.
- Homework must be legible and professional (neat, orderly, final solutions circled or boxed). Illegible homework solutions will be marked as incorrect.

Midterm and Final Exams:

- **Two** midterm exams will be administered during the regular semester. Exams will be given during the regular class period on the dates UNDERLINED on the assignments list.
- No homework will be due during exam weeks.
- Exams may include multiple-choice, short-answer or numerical problems.

Grading:

- 12 Homework assignments: 30%
- 2 Midterm exams (9/27 and 10/30): 2 x 20% = 40%
- 1 Final exam (12/7): 30%

Advice:

- READ.
- Attend drill session for help on homework and course topics.
- Review basic chemistry and physics lecture notes, if necessary.
- Ask questions.
